

## Flattire Freeway \*

Riro Maniscalco / Richard Veras

Capo III            D G D ...

     D                A                D  
I dreamed I'd seen a green garden  
                         A  
In this skyscraper forest  
     Em  
That lets nothing new grow  
     D                A  
The fresh water showers  
     G                D  
Dry weeds into flowers  
     C                G                D            A  
And sprinkles on seedlings unknown

I longed just for one true story  
In this wastepaper playground  
Only tall tales get told  
Give me news to delight me  
And words to invite me  
   D  
To watch the way real life unfolds

     GM7                DM7  
*My hope needs mendin'*  
     FM7                CM7  
*But my need is unbendin'*  
     D                G                D  
*My wantin' don't ever get cold*  
     GM7                DM7  
*I can't help wishin'*  
     FM7                CM7  
*While guitar strings keep fishin'*  
     EbM7                BbM7                GM7 CM7 FM7 CM7 2x  
*For a tune that will never get old*

*La la la*

I looked for another wonder  
In this highwire circus  
Where no risk is too bold  
Keep your clowns and your lions,  
Let the trapeze keep flyin'  
But give my heart something to hold

Will destiny come to greet me  
On this flattire freeway  
Where nobody gets home?  
The rest stops don't feed me,  
The maps never lead me  
To a face that replaces alone

*My hope needs mendin'...*
