

Be Still My Heart

JacquiTreco

Like a wakening volcano
I feel it start to rumble
Be still my heart
Stay locked up
Right where I put you
Yeah, it's for your own good
Be still my heart.

'Cause if you stay still
You won't get burned
And if you stand still
You won't get hurt
But if you stand still
You'll never know
Why you burn at all.

Like a wakening volcano
The blow's inevitable
Please go back my heart
Don't want a catastrophe
Being burned by too many things,
Please go back my heart

'Cause if you stay where you are
You'll never get burned
And if you stay where you are
You'll never get hurt
But if you stay where you are
You'll never know
Why you burn at all.

Like a wakening volcano
We are ripped up and beginning to show
No turning back my heart
Love desire that'll be never spoken
Love that can fill the ocean
No turning back my heart
No turning back my heart
